Surgical Gowns
Overview

Medline offers sterile disposable surgical gowns with different fabric options to help satisfy clinician's preferences and procedure requirements in the operating theatre and areas where a sterile environment is required. The varying fabric options allows clinicians to choose the right gown for every procedure and team member. Medline surgical gowns include:

- **Eclipse™ surgical gowns:** made from SMS fabric designed to offer breathability and lighter weight.
- **Sirus™ surgical gowns:** made from 5 fabric layers (SMMMS) for effective barrier against fluids and pathogens. Available in standard, fabric-reinforced and poly-reinforced options.
- **Advanced™ surgical gowns:** made with integrated SMMMS technology, providing comfort and breathability. Available in standard and fabric-reinforced options.
- **Ultimate™ surgical gowns:** constructed from three-layer trilaminate material, available with poly-reinforcement in the critical zones and fully impervious options.

All Medline surgical gowns have undergone testing to meet AAMI guidelines for industry safety standards. The level required will largely depend on the fluid risk of exposure and type and duration of procedures - the longer and higher fluid exposure, the greater protection that may be needed. AAMI levels are summarised opposite[1]:

LEVEL 2
Fluid risk level: low
Suitable for minor or minimally invasive surgical procedures

LEVEL 3
Fluid risk level: moderate
Suitable for a wide range of surgical procedures with moderate risk of fluid exposure

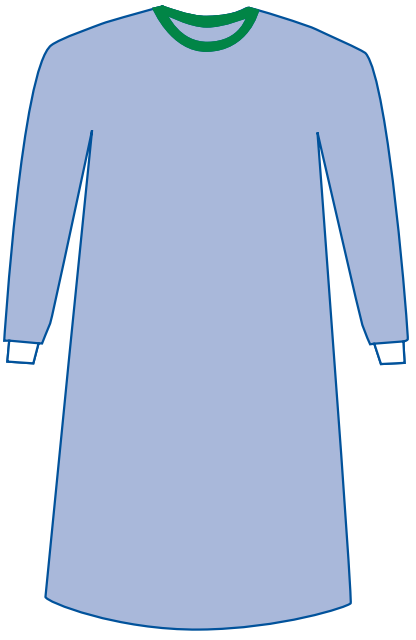
LEVEL 4
Fluid risk level: high
Suitable for major surgeries and for long and fluid-intensive surgical procedures

1. ANSI/AAMI PB70:2022 Liquid barrier performance and classification of protective apparel and drapes intended for use in healthcare facilities.

AAMI Level 2

ECLIPSE™ Gown

Non-reinforced



Description

- Wide cut in the chest and sleeves
- AAMI level 2 indicated by green neck binding

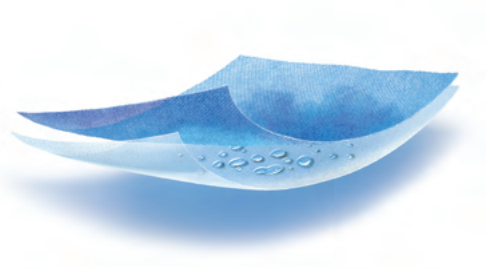
Surgical Drapes
Overview

Why Medline surgical drapes?
Operating theatres demand best product performance at all times. This is why Medline focuses on consistently delivering surgical drapes that are reliable and driven by performance. Listening to the feedback from our customers, we strive to develop products that meet and exceed the needs of operating theatre professionals.

Range of drapes

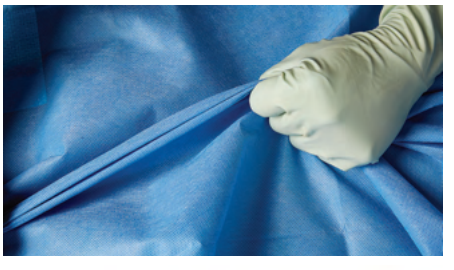
ESSENTIAL SURGICAL DRAPES (BILAMINATE)
The Essential drapes utilise bilaminate technology for absorption of liquid and bodily fluids. The fabric, which also includes an impervious polyethylene layer, provides a barrier against fluids and microorganisms.



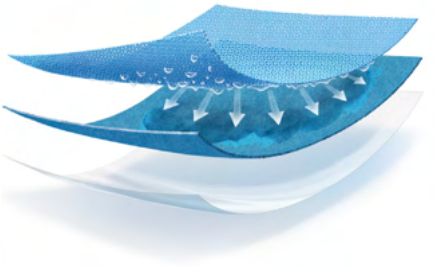
ULTIMATE SURGICAL DRAPES (TRILAMINATE)
A Medline developed drape that is fluid-absorbent and impervious. Made of a three-layered compound of different materials, the Ultimate drape lives up to its name–absorbing fluid throughout the entire drape, providing a barrier against fluids and microorganisms, and ensuring patient comfort.

ADVANCED SURGICAL DRAPES
Composed of five strong fibre layers, our SMMMS drapes provide drapeability, softness and a barrier against microorganisms.

ORTHOMAX SURGICAL DRAPES
Designed to withstand the rigors of orthopaedic and cardiovascular procedures, these durable drapes deliver maximum coverage while helping to repel fluids and resist tears.



HYDRO-DYNAMIC ABSORPTION (HDA)
A specialised fabric technology that quickly absorbs fluid and locks it into the core, minimising the risk of pooling and runoff. HDA is also abrasion-resistant, helping reduce the risk of lint particles adhering to guidewires (found in cath lab drapes).



Basic & Universal

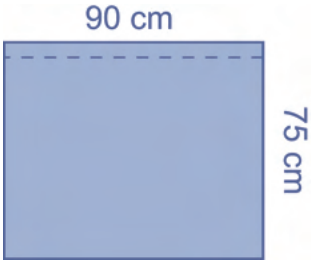
Essential Drape Sheet

With Adhesive

Description

- Bilaminate drape 90 x 75 cm

Item No.	Pkg.	Non-sterile code
ES15211CE	40/inner box 160/cs	ES02C211B-BULK



Essential Small Drape

With Adhesive

Description

- Bilaminate drape 45 x 50 cm

Item No.	Pkg.	Non-sterile code

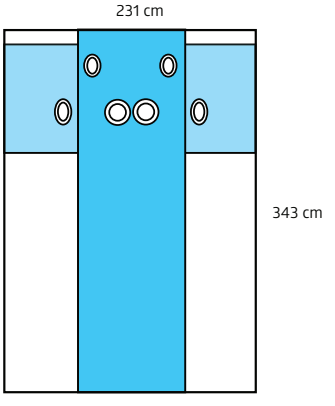
Ultimate Radial Femoral Angiography Drape



Description

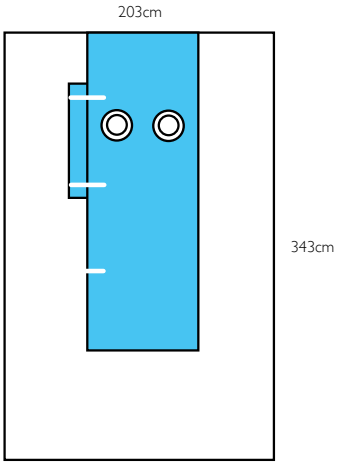
- Reinforcement 343 x 81 cm with circular fenestration 15 cm and oval fenestrations 12 x 9 cm
- Incise film 12.5 x 15 cm with oval fenestration 6 x 4 cm

Item No.	Pkg.	Non-sterile code
SCVSYBX02A	12/cs	TBAG356-BULK

* All products are Latex Free and Sterile, unless indicated in description

Angiography

Ultimate Impervious Femoral Angiography Drape

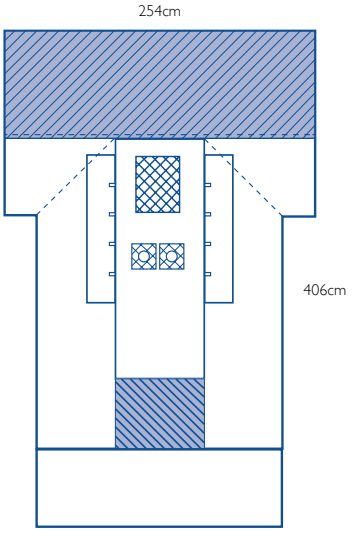


Description

- Absorbent reinforcement 82.5 x 275 cm, extra-long
- Dual clear side panels and clear foot panel
- Dual 15 cm circular fenestrations, 9 cm apertured incise
- Malleable bars

Item No.	Pkg.	Non-sterile code
TBAG3625CE	10/cs	TBAG3625-BULK

Hybrid or Incise Drape Chest/Femoral

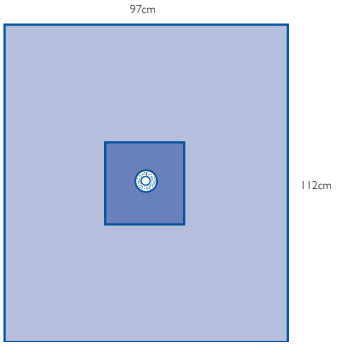


Description

- 2 femoral fenestrations 9 cm
- 1 x 46 x 46 cm chest incise area
- Can be used for procedures where opening up the chest is not a certainty.
- The incise will keep the chest area accessible, but still protected.

Item No.	Pkg.	Non-sterile code
DYNJP4142	10/cs	97692

Brachial Angiography Drape



Description

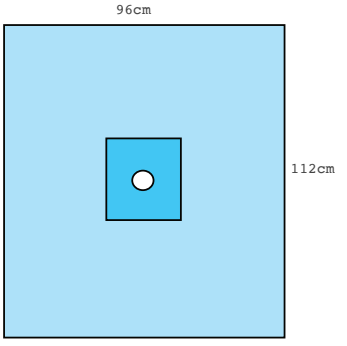
- 7 cm circular fenestration with incise
- 30 x 60 cm absorbent reinforcement

Item No.	Pkg.	Non-sterile code
DYNJP4106	40/cs	SPT-4106A

* All products are Latex Free and Sterile, unless indicated in description

Angiography

Ultimate Brachial Angiography Drape

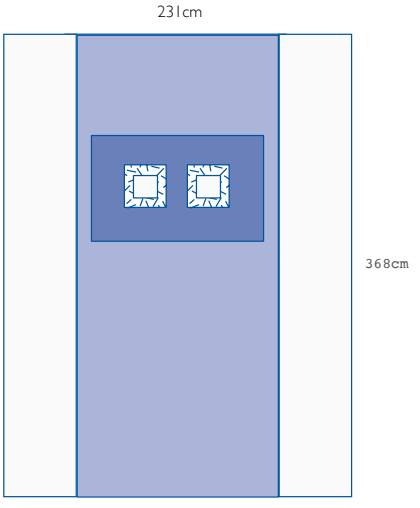


Description

- Trilaminate drape 96 x 112 cm
- 10cm circular fenestration with fenestrated incise film
- Absorbent reinforcement 30 x 30 cm
- Supplied in SMS wrap 60 x 60 cm

Item No.	Pkg.	Non-sterile code
TB29458CE	10/cs	TB29458-BULK

Pacemaker Drape



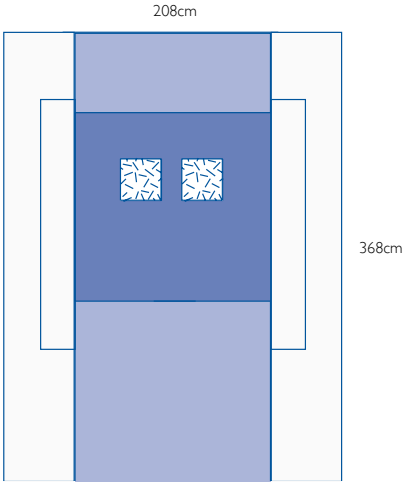
Description

- Dual 15 x 18 cm rectangular fenestrations with incise
- Aperture 10 x 10 cm
- 81 x 91 cm absorbent reinforcement

Item No.	Pkg.	Non-sterile code
DYNJP4107	20/cs	SPT-4107A

Pacemaker Drape

With Pouches



Description

- Dual 15 x 18 cm rectangular fenestrations with full incise
- Dual clear side panels
- Dual clear poly fluid-collection pouches 14 x 119 cm
- Absorbent reinforcement 81 x 102 cm

Item No.	Pkg.	Non-sterile code

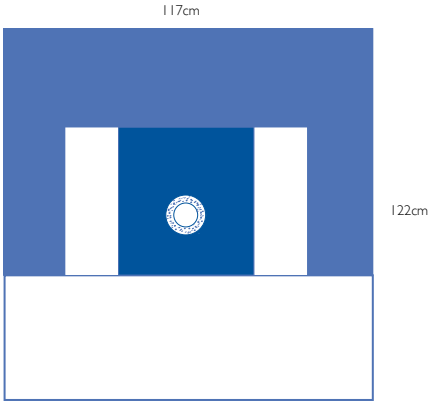
* All products are Latex Free and Sterile, unless indicated in description

Angiography

Radial Drape

With Pouches



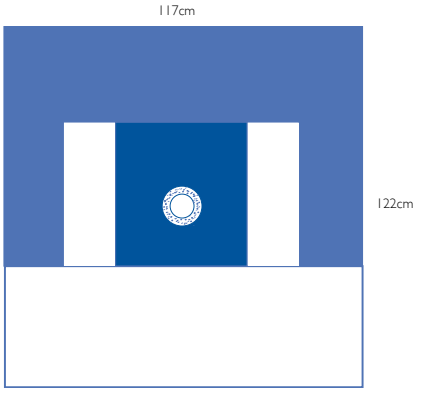
Description

- Radial drape is specifically designed for radial access catheter procedures, which helps save both time and money.
- Used in conjunction with femoral angiography drapes
- 2 x pouches (15 x 51 cm) for instruments or capturing fluid
- 5 cm tape
- Clear window for checking the patient's fingertips for circulation
- Circular fenestration 5 cm

Item No.	Pkg.
DYNJP4123	20/cs

Radial Drape

With Hydro Dynamic Absorbent



Description

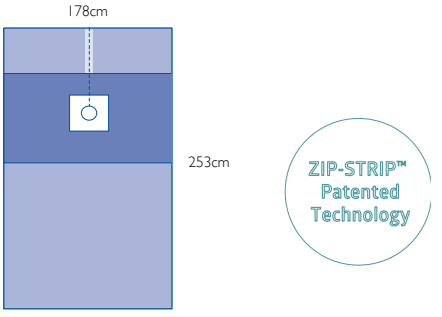
- Radial drape is specifically designed for radial access catheter procedures, which helps save both time and money.
- Used in conjunction with femoral angiography drapes
- 2 x pouches (15 x 51 cm) for instruments or capturing fluid
- Hydro Dynamic Absorbent™ Reinforcement
- 5 cm tape
- Clear window for checking the patient's fingertips for circulation
- Circular fenestration 5 cm

Item No.	Pkg.
DYNJP4123HDA	20/cs

* All products are Latex Free and Sterile, unless indicated in description

Vascular

Central Line Drape

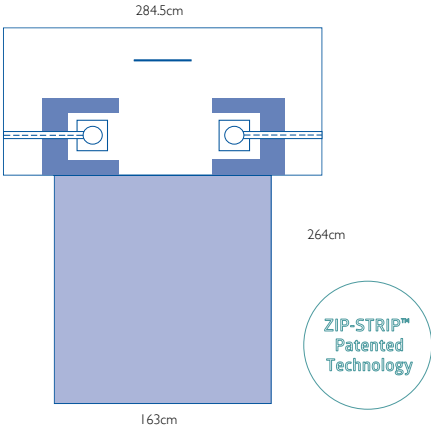


Description

- 11 cm circular fenestration
- 46 x 46 cm clear window around fenestration site for patient visibility
- Central line insertion access

Item No.	Pkg.	Non-sterile code
DYNJP4121	24/cs	48995

PICC Line Drape



Description

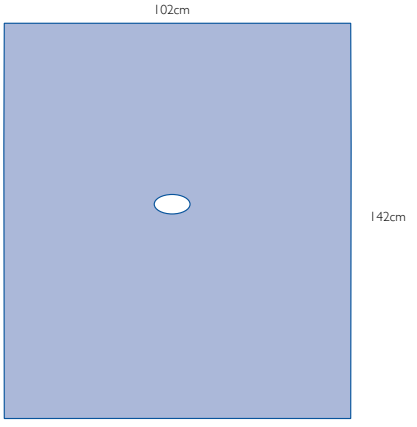
- 284 x 104 cm clear window panel
- 2 circular PICC access points
- Drape includes dual fenestrations with incise 14 cm and apertures 9 cm

Item No.	Pkg.	Non-sterile code
DYNJP4122	12/cs	85139

* All products are Latex Free and Sterile, unless indicated in description

Ophthalmic

Basic Eye Drape



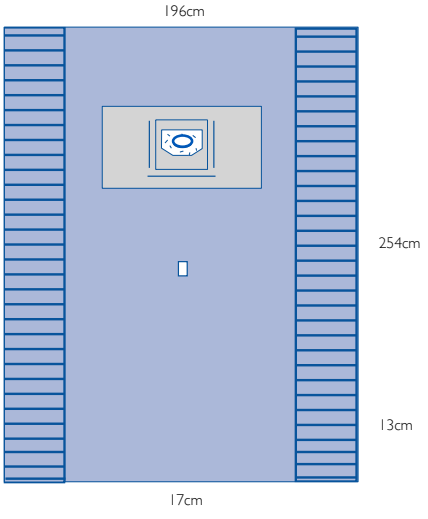
Description

- Oval fenestration 6 x 4 cm

Item No.	Pkg.
DYNJP7013	40/cs

Ophthalmic Drape Fenestrated Incise and Pouches

With Separate Incise Drape



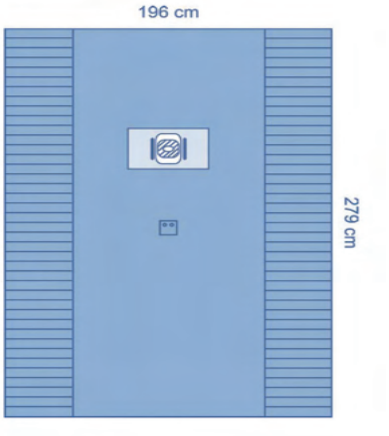
Description

- Fenestrated incise 4 x 6 cm
- 2 fluid-collection pouches 47 x 27 cm
- Malleable breather bar
- Hook-and-loop line holder
- Separate incise sheet 13 x 17 cm

Item No.	Pkg.	Non-sterile code
DYNJP7011	20/cs	SPT-7011A

Ultimate Ophthalmic Drape

With Pouch and Apertured Incise



Description

- Trilaminate drape 196 x 279 cm
- Apertured incise, 8 x 11 cm

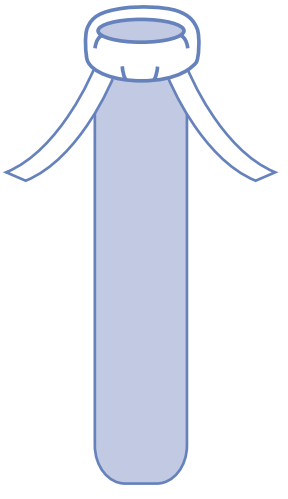
Impervious Stretchable Stockinette



Description

- Offers an ideal fit on a patient' anatomy as it is made from a bilaminate material that is stretchable and impervious. This helps provide sterility and a barrier against fluids
- This stockinette comes with two non-woven pulling ties to make it easier for clinicians to unroll the stockinette on the patient's arm or leg
- Both lower and upper extremities can be covered for surgical procedures with two sizes available: 17 cm and 24 cm

Item No.	Dimensions	Pkg.
22620CE	17 x 76 cm	18/cs
22634CE	24 x 118 cm	10/cs

Towel Drapes

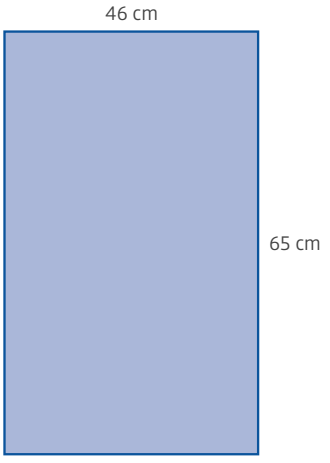
Poly Lined Towel

Impervious

Description

- Poly lined, absorbent and impervious 46 x 65 cm

Item No.	Pkg.	Non-sterile code
3520CEA	165/cs	3520CEACS



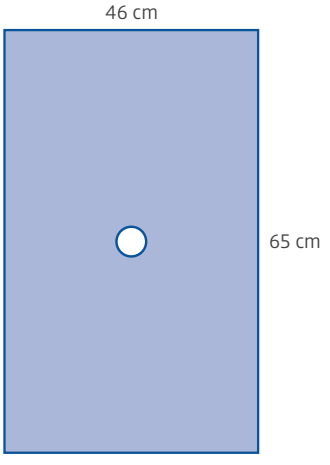
Poly Lined Towel

Impervious with Fenestration

Description

- Poly lined, absorbent and impervious with 7 cm circular fenestration
- 46 x 65 cm

Item No.	Pkg.	Non-sterile code
3523CEA	165/cs	3523CEACS



Towel Drapes

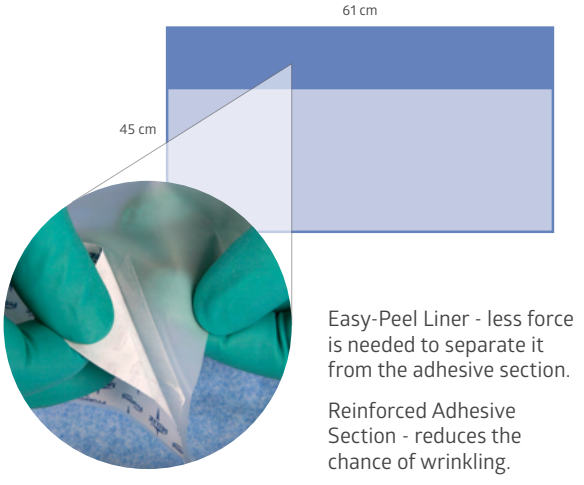
Description

- Adhesive only 45 x 5 cm
- Strong adhesive with no residue
- Non-linting, tear-resistant, poly-release liner
- Strong, drapeable, low-glare matte-finish film

Use

- Prepping, tourniquet and instrument cover squaring off, isolating sterile from non-sterile areas, fluid barrier, non-linting surface

Item No.	Pkg.
IDE1010	40/cs



Easy-Peel Liner - less force is needed to separate it from the adhesive section.

Reinforced Adhesive Section - reduces the chance of wrinkling.

Description

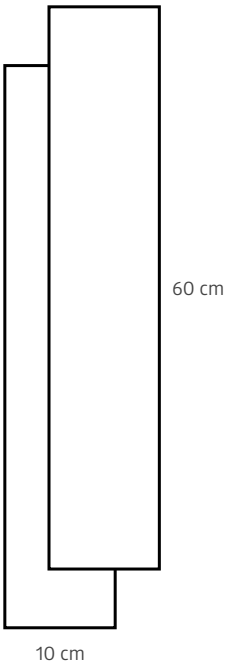
- 10 x 60 cm

Item No.	Pkg.	Non-sterile code
DYNJP2494	4/pk, 100/cs	29673

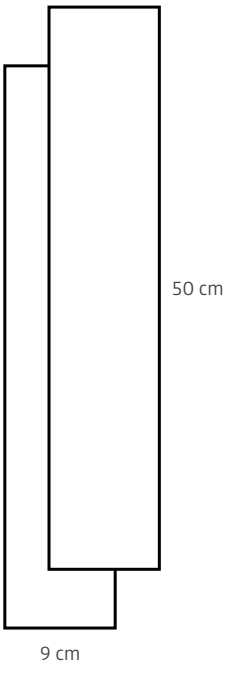


2 Adhesive Tapes

Description

- 9 x 50 cm

Item No.	Pkg.	Non-sterile code
3550CEA	2/pk, 130 pk/inner box 390/cs	ZHE750-BULK



Drape

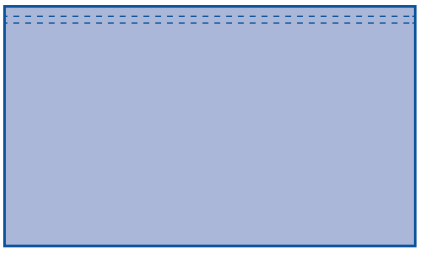
Absorbent Drapes with Adhesive

Description

- Drape features material with high absorbency properties
- Adhesive across the length edge of the drape
- Available in two sizes
- Latex free

Use

- Create a sterile barrier during procedures and help manage fluids



Item No.	Dimensions	Pkg.	Non-sterile code
48150CE	50 x 37 cm Adhesive tape 50 cm	200/cs	NS48150
48151CE	100 x 75 cm Adhesive tape 98 cm	64/cs	

Utility Drapes with Tape

Description

- 38 x 66 cm

Item No.	Pkg.	Non-sterile code
DYNJP2405	2/pk, 200/cs	12496A
