

# Personal Protective Apparel

**Know  
you're  
covered**

# Protect your people **and your** **bottom line**

You want to protect your staff from infections. Our protective apparel goes through rigorous testing and meets strict TGA guidelines. We follow the highest quality standards to ensure you get the protection you need.

# About Medline

We're a global healthcare company dedicated to being easy to partner with, solving problems, and providing good value. In Australia, from our network of warehouses nationally, we manufacture and distribute an expansive portfolio of products for hospitals, healthcare facilities, aged care, and the community.

Since being established in 2011 we've put customers first. But our origins date back to 1910 in Chicago when Medline manufactured butcher's aprons, and soon after, surgical gowns. And the rest is history. So, with Medline you get a local team that understand you, backed by a global healthcare company that's been doing it for generations.

**Together, advancing healthcare.**

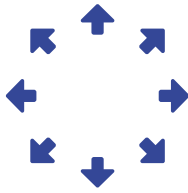

# Why choose Medline

Why are more healthcare professionals choosing Medline for their all-around protection needs?

**High quality  
products**

**Comprehensive  
product range**

**Reliable  
partner**

Your staff are exposed to bacteria and bodily fluids on a daily basis, putting them at risk of cross-contamination. We know you rely on disposable apparel to keep them protected, but also comfortable. Therefore, we apply the highest quality standards to our products and in our manufacturing facilities to ensure that healthcare professionals get the protection they deserve.

## Top 3 reasons to choose Medline

Reliable supply and  
consistent quality.

Enhanced staff and patient  
protection.

Comfort and durability  
designed in collaboration  
with experts.

CRI5000

# AAMI Isolation Gowns

## AAMI PB70 Standard: A reliable benchmark for protection

Under AAMI PB70 Standard, protective apparel must meet minimum requirements for liquid barrier performance to ensure the protection of healthcare workers and patients.

AAMI level  
gowns are  
color-coded  
by neck  
binding

# AAMI Isolation Gowns

## Levels of barrier protection - AAMI PB70:2022

AAMI level	Test method	Requirements at 4% AQL	Anticipated risk of fluid exposure
Level 1 	AATCC 42 - Water resistance: impact penetration	≤ 4g	Low
Level 2 	AATCC 42 - Water resistance: impact penetration	≤ 1g	Low to moderate
	AATCC 127 - Water resistance: hydrostatic pressure	≥ 20cm	Low to moderate
Level 3 	AATCC 42 - Water resistance: impact penetration	≤ 1g	Moderate to high
	AATCC 127 - Water resistance: hydrostatic pressure	≥ 50cm	Moderate to high
